

FRANK IVU 3.0 Automatic

Industrial Vacuum Unit

OSPREYFRANK
STEAM TECHNOLOGY

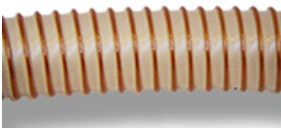

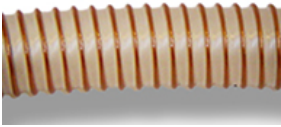

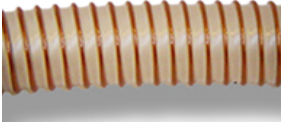

- ▶ Powerful industrial vacuum cleaner with liquid bath separator integrated in the dirt container
- ▶ Side channel blower for continuous operation
- ▶ Fully automatic control and regulation by SIEMENS PLC:
 - Water level sensor for water min.
 - Water level sensor for water max.
 - Temperature sensor for temp.max.
 - Fully automatic filling and emptying of the water tank.
 - Automatic steam cooling using network water
- ▶ Solenoid valve for network water
- ▶ Pump for automatic emptying of the water tank
- ▶ Stainless steel water tank
- ▶ Comfortable lowering of the water tank for easy disposal of the suction material.
- ▶ Mobile steel chassis, powder coated

MADE IN GERMANY

Technical data FRANK IVU 3.0		Item No: 1309181
Power		3.0 kW
Tension		400 / 50 Hz Volt
Number of revolutions		2,800 min-1
Admission		6.8 A
Protection		IP55
Negative pressure		260 / 340 mbar max.
Air flow		330 m ³ /h
SPL		75 dB (A)
Filter		3
Filter surface		3,000 cm ²
Capacity		100 lt.
Dimensions		(HxWxD) 1700x630x835mm

Accessories **FRANK IVU 3.0**

	Suction hose DN 40 1307287
	Suction hose DN 50 1307288
	Suction hose DN 60 1307289

- PUR Suction hose
- with Wire spiral insert
- Electrically conductive
- Bending radius 64 mm
